WOUND CARE + SCARRING

"My son was in a horrific car accident and was pronounced dead on scene. Luckily, he was revived and taken to hospital. He had severe facial damage and had to undergo plastic surgery the next day, on February 1 2021.

I dreamed about NeoGenesis products that night, and knew I wanted to try them to help his skin.

As you can see from the "before and after" photos, Kasmen is healing really well, and the scarring has improved immensely."

– Gail Day, Soft Aesthetics Skin Care Clinic

WOUND CARE + SCARRING

NEOGENESIS PRODUCTS USED:

Recovery, Barrier Renewal Cream

“I was in a horrific car accident which opened a huge gash from the side of my eyebrow to the back of my head. The wound was deep, and went all the way to the skull. I was told by the doctors I may need additional reconstructive surgeries.

Once stitched up, I immediately started using NeoGenesis Recovery serum 3x per day on the scar, Barrier Renewal Cream, Neosporin, and scar tape. There was a red raised area around the middle of the scar that seemed to be healing slower than the rest of the scar.

Within a month the scarring looked a lot better, the redness was mostly gone and the texture had improved. I was really impressed how quickly my skin was repairing.

After 3 months, the doctors said they did not think I would need plastic surgery.

I am so amazed by the progress. When I look back at the photos, it is just “wow!” – JG

CHEMO WOUND CARE
EROSIVE PUSTULAR DERMATOSIS

“I am very excited to share these scalp pictures.

The patient was given a diagnosis of erosive pustular dermatosis of the scalp. I saw this patient after his treatment with Imiquimod and Clobetasol cream.

I treated him with oral antibiotics, salicylic acid shampoo, and sodium hypochlorite, and I gave him a tube of your NeoGenesis MB-2 cream.

He told me that his scalp was better after 1 week. He now wants to purchase the MB-2.

The after photo was from today.” – Dr. Cynthia Tie, Family Dermatology of North Florida

Recovery, Barrier Renewal Cream

"My dad was injured in a fall and had deep wounds on his face near his eye. I applied the Recovery and Barrier Renewal Cream twice a day and took photos to monitor his healing. Every day I religiously applied it.

The nurses at the hospital starting coming in, and they were like “what is that stuff?" And I said, "I need to put this in a drawer, because it’s like liquid gold." They said, “I can’t believe what that just did to his face.”

It was amazing to see the transformation. Day to day, you couldn't tell so much. But when you look at the beginning to end, his skin actually looks better on that side than the other side. The age spots and the area around his eyes - it’s actually so much better now." - CA

Recovery

“I had a rough bike accident that removed significant skin from the right side of my body and caused minor abrasions on my left side.

I used Recovery only on my most difficult scrapes on my right side.

Within 3 weeks my worst scrapes were completely gone with only minor scarring, while the minor abrasions were still at the scabbing stage.

This product should be in every emergency room in the country!” – SM

WOUND CARE

"This young lady was attacked by 3 dogs and basically scalped. She required multiple, extremely painful, skin grafts. The first and second skin grafts failed.

I contacted NeoGenesis to see if they could help. They sent Moisturizing Mist, Recovery serum and Intensive Moisturizer with instructions on how to use the products.

She started using the products immediately and her scalp healed beautifully. Best of all, she did not end up needing the third skin graft that was scheduled." - Gaynor Farmer

WOUND CARE

"My client had a lesion on the center of her nose and side of eyebrows, from what is believed to be bug bites. Her doctor put her on antibiotics for 2 weeks and prednisone for 1 week. Once the scab had fallen off, a friend of hers, who is a nurse, recommended that she not let the open wound dry out.

She began to using Recovery serum and Barrier Renewal Cream and in 7 days said the wound was progressing nicely. She then had a series of 4 laser treatments to treat the scarring. She covered the wound with a band-aid, and used 1 drop of Recovery on the gauze, and applied that 5 times in one night.

She believes her healing time improved."

DAY 7

DAY 14

DAY 21

NEOGENESIS PRODUCTS USED:

Recovery

"I work a lot with my hands in remodeling. Therefore, I am no stranger when it comes to cuts and deep wounds on the job. My most current accident on the job was one that I probably should have gone to the hospital for. However, by the time I was able to reach a populated area, I could not get stitches for it. Therefore, I had to let the wound heal from the inside out.

My friend introduced me to a product called Recovery, by NeoGenesis. Within the first three days of using Recovery, I noticed a difference. Tissue repairs started quicker than I anticipated. The color was healthy and pink, and no signs of infection. By the time the second week had ended, the scab was almost completely gone. By the end of the third week, the injury was completely healed. The scarring, although still noticeable, is minimal compared to what it could have been.

I would highly recommend this formula to any construction or remodeling workers to help speed up the process of healing and to get back on the job." – W

"The doctors removed a birthmark from my young client's forehead. She was only 12-13 years old. It left a scar.

The first week there was pressure and it felt like a hole was there. It was bumpy and still very visible and ugly.

After about 6 weeks there is just a little raised skin or a bump near the scar, but I could barely see the scar itself.

Recovery is such a great product! Glad I started her on it early. I actually started dropping it onto the wound over the steri-strips. I didn't even wait for them to come off to start treating it."

WOUND CARE (BURN)

“I am a mechanic and I occasionally burn myself while working. Recently I got a severe burn on my thumb while working. I have had similar burns before and they usually end up with the blisters breaking, sometimes scabbing over, but always painful to any pressure or touch until completely healed. The skin also usually peels off in strips and pieces and takes with it unaffected skin next to the burn.

The NeoGenesis product Recovery seemed to help the burn from underneath, and after day 10 the skin was still intact with no peeling. The skin of the affected area is also softening daily.

I am so grateful that my friend turned me on to these amazing products!” - M

WOUND CARE (BURN)

"I was helping a friend and her boyfriend's motorcycle had just been pulled into the garage. I wasn't paying attention and got my left lateral calf up against the tailpipe and because I didn't realize it was hot (thought it was sharp), it caused a double ring second degree burn to my leg.

I self-treated this with Bacitracin and Silvadene until 6/18/19 when I went to urgent care because it started showing signs of infection in the deepest parts. I went on antibiotics but started having side effects from these within a couple days.

On 6/20/19, I was given a small bottle of NeoGenesis Recovery and immediately started using it. Within a couple of applications, I had significant reduction in discomfort and could visibly see improvement. I am so blown away at the amount of progress that has occurred in the 6 days since beginning this product and because the new tissue looks so good, I'm hopeful the scarring will be minimal. 11 days later and the wound is nearly completely closed.

I am a nurse and saw firsthand how this product worked on a close family friend for her bed sores at the end of life. Wound care providers need to know this product exists. As I've researched this product more, I am excited to explore its other applications (I also have rosacea!)" – J

SHINGLES

“I found myself in the most intense pain I have ever felt and had no idea what it was. The pain was such an intense burning and at about an 8 (on a scale of 10). My doctor told me I had shingles. A friend of mine suggested I immediately use Recovery from NeoGenesis.

Within 24 hours the burning was gone and my pain was down to a 3. By 48 hours, I had no discomfort at all. On day 4, since the pain was gone, I figured I did not need to use Recovery, that the worst was over. Oh, was I wrong, I woke up on day 5 to that intense burning pain again, this time it was at about a 5. Upon applying Recovery again, the nerve pain was gone in about 8 hours this time again.

I would recommend Recovery serum to anyone unfortunate enough to suffer from this miserable condition. I will never be without a bottle of this fantastic product in my medicine cabinet again. Thank you NeoGenesis!” – MS

MONTH 4

TELANGIECTASIA

"My client, in his mid-60s, came to me with significant telangiectasia, textured skin, and slow-healing wounds from cautery treatments. He had maintained his skin in the past with basic facials but had never experienced true transformation.

Since starting the NeoGenesis regimen, his redness has decreased dramatically, his texture is noticeably smoother, and his cautery sites have healed far faster than expected. The improvement across his nose, chin, and cheeks has been remarkable, and even his friends are complimenting his skin.

Initially skeptical, he's now fully committed to continuing with NeoGenesis long-term after seeing the difference it's made. This outstanding progress, documented through the case study, earned me first place overall in the Open Medical category at The Skin Games that year." - AF

DAY 21 - “I’ve been battling with an open wound on my leg for about 10 years. It has not been easy, my foot and ankle constantly hurt. My friend raved so much about NeoGenesis; I knew I was going to have to try the product ... very pleased that I did. I’ve already seen the progress Recovery has made on my leg in less than a month. It is amazing what Recovery has done for the texture, color and itchiness of the scar area around the wound. I am trying to avoid another skin graft.”

Day 60 - “I feel if it wasn’t for having Recovery on hand to use, the new scratch I got would have turned into a wound. I would highly recommend Recovery serum. Again, thanks a million for all you’ve done and are continuing to do. I can’t express how grateful I am for the 2nd bottle of Recovery I received. I’m very impressed with the way Recovery is working. It has been years since my scar has been this smooth. Prior to using Recovery, with previous wounds, it took them longer to heal and the surrounding scar tissue was dark. Since using this product I’ve noticed major changes in my wound and the surrounding area.”

Day 110 - “My appointment was fantastic at the Wound Care Center. The wound measurements were .8 x 1.1 with a bridge closing in the middle. I am so excited. I cannot thank you enough for helping me. This Recovery is absolutely amazing. I rave about it every time I go to the Wound Center, and honestly, I don’t have to go as often now that I’m using this product. If there is anything I can do for y’all to help advertise and get the word out, I certainly will. Thanks for all you do.”

Day 140 - “Look at the sides of my sore now touching. Thank you so much. I had to magnify the picture so you can see it better. I just cannot say enough about you gifting so much of this wonderful product to me. You all are a major blessing. How do I tell more people about you?” - CW

DIABETIC ULCER

"The ulcer on my right foot started as a callus, and then that callus turned to a diabetic ulcer, which eventually opened up.

At Wound Care, they did the debridement of that ulcer. And then talking with Kathy, she hooked me up with you folks for the NeoGenesis products, the Recovery and the Barrier Renewal Cream.

To me, when we started using the Recovery is when that wound started healing. It wasn't healing, I don't believe, before then. Not to say that wasn't healing. It just wasn't seeing any consistency. It'd be like up and down, up and down, up and down. And when I started using the product, in my mind, it started healing.

So I really strongly believe in this technology, and I truly believe that when I started using these products that my foot started healing, and before then, it wasn't." - PP

“I had a blister on my left heel and the photo on the left is when the doctor removed the blister.

The doctor's office did not want me to spray anything on the foot, as it was so macerated and had so much fluid draining from it that they didn't want any more moisture. They were trying to keep it as dry as possible to the point where the bandages were being changed 3 times per week. I had so much drainage.

I started used the Recovery + spray once the wound started to close. I believe that sped up the healing process. Now that it is closed, I started using the Recovery + again and I am using it on the entire bottom of my foot because I'm really afraid to get another ulcer.

I also have hemosiderin staining from lack of circulation in some parts of my legs and the Recovery serum seems to help that staining.

Thank you so much, you guys. I can't say enough about your support. So thank you.“ – PP

“My husband has been a diabetic for over 20 years. In the last 8 months, his diabetic legs have gotten much worse. The skin on his legs looked like alligator skin. And then he got a diabetic ulcer on his right leg that was painful and open. He also developed a second ulcer on the same leg near where the original ulcer started. I was quite concerned he was going to lose his leg.

Then we were introduced to NeoGenesis. The Recovery serum was amazing... in a short period of time not only did the swelling improve in both of his legs, but the scaly alligator, dry, red, oozy skin - all of that has disappeared. The diabetic ulcer improved within 4 weeks. He no longer has pain, discomfort, or swelling. He is able to walk with confidence! His legs are now moist, looking healthy, feeling healthier, and the open sores have totally healed within an 8 week period. They have healed and looked like normal skin again. He has no scarring. And it has improved not only the skin, but the feel and the texture of his skin.

It's truly a life changing experience. I would encourage anyone who has a problem with diabetic legs, with ulcers, with dry, flaky skin, to try the product. I really believe you would be amazed at the improvements that you would see, and not only in your skin, but also with your self-confidence and improvement in your quality of life. It is truly an amazing product that changes your life.” – Marjorie J.

CLIENT FEEDBACK:

“I struggled with an open wound on my leg for over a year. I work in the oil field and my boots constantly aggravated the wound. I tried everything my doctor recommended and nothing worked. Jackie Ramirez recommended I try NeoGenesis Recovery. Within two months the wound closed for the first time in 14 months. It was healing and felt like it was healing from the inside out.

Thank you, Jackie, for your help and for bringing me to the NeoGenesis products” - G

PROFESSIONAL FEEDBACK:

“This is a client I have known for a very long time for tattoo removal. He told me about the open wound he had on his leg for just over a year. I had seen another case study showing NeoGenesis Recovery helped a person get closure on a diabetic ulcer that had been open for several years. I gave him Recovery to test. He called me back 2 months later with the great news that his wound had finally closed.” - Jacqueline Ramirez, New Beginnings Tattoo Removal

"I received a nasty cat scratch that normally would take a very long time to heal. My immune system is severely compromised, and the doctors were very worried. They gave me a tetanus shot and antibiotics. I was petrified that the area would not heal because I am a diabetic, plus I have multiple sclerosis (M.S.) and sarcoidosis. I'm also on chemotherapy and a blood thinner.

I applied NeoGenesis Recovery + serum and then Barrier Renewal Cream and wrapped my leg up, as the doctors advised. Within 3 days it had already started to heal. Now there is only a tiny spot that is still healing.

I went to my doctor and he said “Whatever you are doing just keep doing it, because this is healing so nicely."

I am so thankful for NeoGenesis. It was amazing. – Holly Brown, Looking & Feeling FAB

DIABETIC ULCER

“I met with my client Larry again today and he is absolutely thrilled with the improvement that has taken place since he started using the Recovery Serum (about 30 days ago).

Larry is a diabetic with extremely poor circulation. He has been coming to me weekly and we have had to work around 4 major open wounds.

I only have gotten pics the last 2 weeks of the ones on his right shin. This was a result of a vascular procedure to restore blood flow to his leg and foot.

Here are pics of the 2 wounds on his shin, pics on the left were from 7/15/21, right is from today 7/22/21. Unbelievable difference in ONE week.”

Recovery

PRESSURE ULCER

"I met Larry at a 55 and older facility where he was living. He had severe diabetes and due to that he developed a lot of blood clotting issues as well as poor healing.

This wound was a result of a hospital stay where he spent 10 days flat on his back and no one elevated his heels, resulting in serious pressure sores on both heels. The only saving grace for him was due to the severity of his diabetes he lost most of his feeling in his feet.

When he returned to the facility he came to me for help. I immediately started him with Recovery. I would clean and wrap his heels twice daily. As you can see the pressure sores healed very quickly within 14 days which is remarkable."
