MOHS SURGERY

"These photos show the scalp of a client following Mohs surgery for squamous cell carcinoma.

The doctor did not stitch, but put on a compression bandage for 3 days. Patient used topical antibiotics. Once the compression bandage was removed, NeoGenesis Recovery serum was used twice a day for 3 weeks, then once a day for 4 weeks."

BASAL CELL CARCINOMA SURGERY

NEOGENESIS PRODUCTS USED:

Recovery, Moisturizing Mist, Barrier Renewal Cream

"Client was diagnosed with Basal Cell Carcinoma on her nose over 10 years ago and tried multiple medical and holistic treatments to try and heal it including laser, photodynamic therapy (PDT) and cancer cream treatments.

She ended up having cancer surgery and the doctor removed the entire tip of her nose and made an incision on her forehead and flapped it down to her nose. She has now had 3 surgeries for skin cancer and the surgeon has told her she will need a 4th.

My client is an Esthetician and knew that stem cells are the future, so she started on NeoGenesis Recovery, Moisturizing Mist and Barrier Renewal Cream. Her skin is looking really good and the scarring has improved significantly." - KP

CANCER SURGERY

"I had a tumor about the size of a ping pong ball removed from my leg which left a large void and a very large incision.

I was very upset about the size and knew I was going to have a nasty scar on my leg.

My doctor recommended that I use NeoGenesis Recovery Serum, and I am so glad that she did.

I am still amazed when I look at my leg, that it healed so well. I cannot believe how the void filled in completely, and the scar is so faint that I have to actually look for it.

I am so thankful that I found your products. Recovery is so amazing." – KC

MOHS SURGERY + RADIATION

"This client underwent Mohs Surgery and 25 doses of radiation for morpheaform basal cell carcinoma (BCC).

She had a BCC to the medial aspect of the right inner canthus which has been treated with 25 doses of radiation and is well-healed.

She is really appreciative and thankful to have the products."

DOUBLE MASTECTOMY + NECROSIS + RECONSTRUCTIVE SURGERY

NEOGENESIS PRODUCTS USED:

Recovery, Barrier Renewal Cream

"This client had a double mastectomy at the end of November and then had emergency necrosis surgery December 14 - 3 weeks after the mastectomy. Her skin died during surgery so they closed the wounds quickly so she would not be as susceptible to infection. She is allergic to a lot of antibiotics and sulfa medications so she cannot use any topicals with sulfa. That was an issue after her surgery. They used nitroglycerin paste on it but the damage was already done and did not help her.

She met Holly Brown, founder of Looking and Feeling FAB and began using essential oils, NeoGenesis Recovery serum and Barrier Renewal Cream. The plastic surgeon was in total shock about her recovery and how well she has done, and wanted to get started with her reconstructive surgeries. She had her pre-op with her surgeon and he said since things are looking so good, they may not need to cut her chest muscles and may just be able to put the expanders over the area. She continued on the products so her skin was prepared for the reconstructive surgery, using on both the breast area and hip area. She is also getting liposuction from her hips so they can take some of the fat and graft it to the right side to try to get a smoother transition.

One week post surgery, the doctors were impressed with the healing of her scarring, they wanted her back on the NeoGenesis products 2 weeks post surgery.

Her doctor's felt the quality of her recovery has been improved by NeoGenesis products. She had her 3 month follow up with her plastic surgeon last week and they are very happy with how everything looks." – AS

MASTECTOMY + NECROSIS

NEOGENESIS PRODUCTS USED:

Recovery, Barrier Renewal Cream, Moisturizing Mist

"DF had necrotic tissue after her vacuum bandage was removed post mastectomy. She had radiation treatments 13 years earlier that had badly burned her skin, so it was already compromised.

She started using Recovery serum around the area 1-week post-surgery.

Her doctor was happy with the progress of the healing and how the wound closed." – HB

TONGUE CANCER SURGERY

"Client was diagnosed with tongue cancer and had surgery for a partial glossectomy, as well as removal of her lymph nodes.

She then had 30 radiation treatments for 6 weeks, 5 days per week. She used NeoGenesis Recovery, Intensive Moisturizer, Barrier Renewal Cream and Moisturizing Mist." - MM

TONGUE CANCER SURGERY (PARTIAL GLOSSECTOMY)

"Client was diagnosed with tongue cancer and underwent surgery for a partial glossectomy, as well as removal of her lymph nodes.

The cancer spread along the nerve line, requiring radiation treatment at MD Anderson. She then began 30 radiation treatments for 6 weeks, 5 days per week.

She experienced numbness, bleeding, and tenderness in the tongue during healing. She used Oralease and Recovery and continued to use the products post-treatment for relief and to promote healing." - MM

MOHS SURGERY

“Thanks for following up on my Mohs surgery. Initially, I did not use the Recovery serum on the open wound and only used Manuka honey bandages twice daily.

As the wound began to close, I used Recovery serum around the perimeter of the still open wound, along with the Manuka honey bandages.

I continued to use Recovery serum twice daily until the wound was completely healed at 4 weeks.

I am so grateful for your generosity in supplying me with your products, and I am very pleased with the results. People remark that you can’t tell that a lesion was removed from my nose. Thank you so much.” – HW

ORAL CANCER SURGERY

"I was diagnosed with tongue cancer and had to have surgery to remove 1/3 of my tongue. I ended up with scars across my neck.

A friend sent me some Recovery serum by NeoGenesis and I used it on my scar. I continued to use the Recovery serum on my neck and I saw my radiologist last week and she was blown away at how well my neck scar is healing.

As you can see from the pictures, the scarring is almost gone from Recovery serum. I am so grateful for everything that the NeoGenesis products continue to do for me." - JP

MOHS SURGERY

"RC had surgery on Friday where they removed a cyst from his neck. It left him with some pretty nasty scars.

He is using Recovery serum, twice a day. The "after" photo was taken 2 weeks post neck surgery. He applied NeoGenesis Recovery twice a day, every day. Quite impressive."

- Debbie Coffin, Skin Secrets by Debbie

NEOGENESIS PRODUCTS USED:

Recovery

"I had a second chance to "test" the product when a PET scan identified a benign tumor in the area of my left parotid gland, and I underwent surgery to remove it. The procedure left a nasty incision around my ear and extending an inch or so down to my neck. I applied NeoGenesis Recovery serum daily immediately post-surgery, and within a week my incision was hardly noticeable.

I'm very appreciative of the support we received from the NeoGenesis team -- Leila and Steve -- who checked in weekly, offering their guidance and expertise along the way and were always available for questions. Based on the success I experienced and the support we received, I strongly recommend the NeoGenesis products and team to patients and providers looking for a way to accelerate healing and reduce the discomfort associated with these aggressive treatments." - RC

SKIN CANCER SURGERY

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Booster, Skin Serum, Eye Serum, Barrier Renewal Cream, Intensive Moisturizer, Light Moisturizer, Moisturizing Mist

"My client has struggled with skin cancer for 40 years. She had skin cancer surgery on her cheek. The scar grew into the size of dime in the matter of a month.

She started using the NeoGenesis products and I saw the difference in the healing and redness of the scar. Her overall skin tone and firmness is improving, and the hyperpigmentation is less splotchy.

After 3 months I am seeing a tremendous improvement!" - EC

BASAL CELL CARCINOMA SURGERY

"I want to thank NeoGenesis for the creation of your Recovery Serum, as it has helped me with several difficult situations.

I have Addison's Disease which slows down the healing process on everything with my body.

I have also had multiple Melanoma and Basal cell removals. After using Recovery on my most recent procedures, I feel it has reduced my healing time.

Such a blessing." – MO

RECONSTRUCTION SURGERY SCARRING

"My client was diagnosed with breast cancer after her mother died of the same disease. She had a mastectomy in the beginning of January and they took the tissue and muscle from her belly for reconstruction.

5 1/2 months after surgery is when we started working on her scar. Five months later, the texture, border and color have improved significantly. She is thrilled!" – Christine Simmons (Preston)

SURGERY SCARRING

"After multiple surgeries, radiation, and complications from head and neck cancer, my body was struggling to heal, especially with recurring blisters, scar tissue, and delayed wound recovery.

Discovering NeoGenesis has been a complete game-changer. The Recovery and MB-2 products helped my mouth sores recover faster, eased my internal and external pain, and significantly improved my skin texture and discoloration. Even my leg, which wasn't healing at all post-surgery, started to close and regenerate once I began using the products.

NeoGenesis didn't just support my skin; it helped me feel like myself again." - DH

CRYOTHERAPY

CRYOTHERAPY

“I am profoundly grateful to the folks at NeoGenesis. I had two pre-cancer spots treated by freezing near my left eye and it was very visible aesthetically. I was horrified that I might have ugly scars so prominent on my face. A dear friend introduced me to NeoGenesis Recovery and I ordered it immediately, as I had seen the amazing recovery she had from the product. I used NeoGenesis Recovery twice a day as recommended and within a week the scars were nearly gone, and after 11 days they were invisible. I was able to keep the spots moist at night using Manuka honey bandages which I believe augmented the healing of the already magical NeoGenesis. I have quite a bit left in the little bottle and I’m going to use it ALL for anti-aging! I highly recommend this product.” – JC
